Election Materials

Let us help you prepare differentiated instruction for every student in your class through articles and inquiry lessons presented on *their* level! [Learn more here!](#)

Freckle Diagnostic

How does it work?

Our diagnostics assessment never needs to be assigned by a teacher!

When your students click on a domain for the first time, the software will automatically establish their "good-fit" level through a 5-8 minute diagnostic assessment.

This speedy assessment enables you to reach all of your students at their own level-- below, at or above grade-level!

Click to explore just how easy it is to get your students started on [Math](#) and [ELA!](#)

Upcoming Office Hours

Come with your questions or to watch a demonstration on how Freckle works-- all experience levels are welcome!

This week's special focus: Roster Management & Customization

Join us every Thursday at 3:00! [Click here for the Zoom link!](#)
